Yeah, I already had those unvalid 8/10 and 8/11 data in that spreadsheet. What I'm hoping for is the validated 8/10 & 8/11 data in the same (not SADIE) format. I can download and use the SADIE format but it will require lots of extra work to whip into a useable format (see attached for example).

I see that SJR data thru 8/11 are posted on SADIE. Does this mean they are validated?
And, does this mean they are "approved"?

Also any chance of getting those data in a simpler spreadsheet format as we've previously gotten (b/c easier to work with)? See attached for example.
